PROJECTS

Here are some of the projects i've worked on recently

[VIEW REPO](#)[LIVE SITE](#)

HERITAGE-X

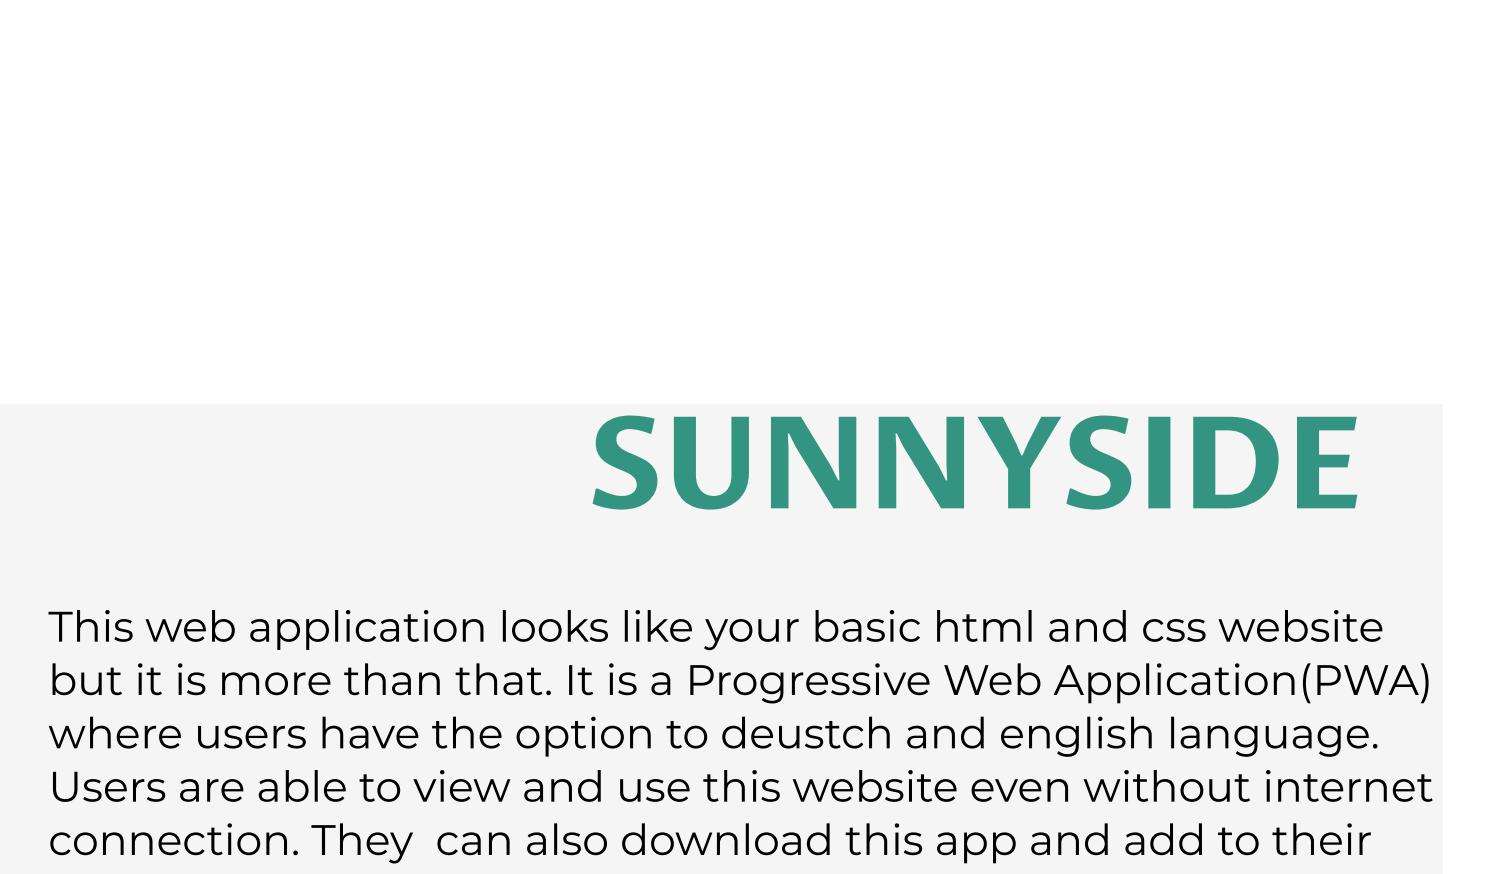

This is a cultural heritage website i created to help people learn more about their unesco heritage sites around the world. Users can save some of these sites to their visit list or bucketlist.

Made using REACT, SASS and GSAP, useContext API was used for the state management, data was fetched from a json file and Google maps API was used to display. Graphics and layout designs was created using figma.

ARCHSTUDIO

Archstudio is a multi-page website i created. Users are able to view optimal layout for each page depending on their device's screen sizes and also view actual locations on the contact page map.

I created this site with REACT, SASS and the state was managed with useContext API and Google Map API

SUNNYSIDE

This web application looks like your basic html and css website but it is more than that. It is a Progressive Web Application(PWA) where users have the option to deustch and english language. Users are able to view and use this website even without internet connection. They can also download this app and add to their android home screen on mobile and desktop.

It was made with HTML, CSS and Vanilla Javascript(ES6). Animations on this site were made with GSAP(including the smoothscroll plugin).

AUDIOPHILE

Audiophile is an e-commerce website. It is a frontend mentor guru challenge. Users are able to add/remove items from cart. Edit product quantities in cart, receive form validations if fields are missed or incorrect during checkout and see an order confirmation modal after checking out with an order summary.

Made using REACT, REACT Hooks and styled using SASS. For state management, useContext API was used and data was fetched from a json file.

GET TO KNOW MORE ABOUT ME

Hello,

My name is Adeola Bamigboye, and i'm a passionate frontend web developer using web technologies to build amazing products and focusing on solving products and for different niches and industries using the power of technology.

I would love to hear from you. Whether it is a project, job opportunity or just a chat.

Feel free to contact me.
